R Markdown Assignment

Samuel Doud

9/4/2017

Titles belong at this header level

A subtitle would be here

This is an *R Markdown* document. It is used to **document** R code.

- Lorem ipsum dolor sit amet
- consectetur adipiscing elit.
- ut feugiat lorem facilisis mi scelerisque pretium.
- Donec sit amet massa massa.

1. Lorem ipsum dolor sit amet, consectetur adipiscing elit
2. Donec dolor urna
   - ultrices sed semper at
   - malesuada at magna
3. Nam viverra. <– ~~What would allow this to continue the list?~~ Seems you shouldn't use the 1. numbering for ordered lists

Here is an example of text coloring. Seems like HTML.

Equations are created just as in LaTeX. $\pi = \frac{A}{\sqrt{r^4}}$

Code is generated by wrapping the code in "'" and beginning the code with 'r'. For example 12! = 4.790016×10^{8}.

I think this what the assignment means by 'session info'.

```
##      speed           dist
##  Min.   : 4.0   Min.   :  2.00
##  1st Qu.:12.0   1st Qu.: 26.00
##  Median :15.0   Median : 36.00
##  Mean   :15.4   Mean   : 42.98
##  3rd Qu.:19.0   3rd Qu.: 56.00
##  Max.   :25.0   Max.   :120.00
```

This is a plot of included R data with the code exposed.

```r
plot(pressure)
```
